# The Year in Retrospect

Art Mentor Foundation Lucerne supported 35 new grant projects in the last year. Going through the project overview (*page 8ff*), one may notice that several grants were awarded to institutions with which Art Mentor Foundation Lucerne has repeatedly collaborated. This is because the Foundation relies on continuity.

At the same time, Art Mentor Foundation Lucerne is open to establishing new collaborations. The Foundation's funding strategy is specifically geared to giving innovative and groundbreaking projects a chance and supporting them intentionally in their initial stage. As a result, in addition to well-established partnerships, several pilot projects could be launched with a grant from Art Mentor Foundation Lucerne in 2015.

Whether new or well-established – in the end, it is always content and quality that counts. In this spirit, we would like to extend a heartfelt thanks to both our «well-established» and our «newly acquired» project partners for their work and commitment to cultural affairs!

Lucerne, June 2016

Managing Director

# Foundation Purpose and Grant Areas

Art Mentor Foundation Lucerne endeavors to promote the general interest and understanding of art. For this purpose, the concept of art is taken here in the widest sense possible so as to include diverse genres and various ways of expression. The Foundation focuses on three grant areas: Visual Art, Music, and Cultural Education.

---

## VISUAL ART

Art Mentor Foundation Lucerne's concept of «Visual Art» encompasses not only the classical genres of art such as painting, sculpture, graphic art, drawing and photography, but also new forms of expression and media such as performance, experimental film and video. The Foundation provides funds for regular and special exhibitions as well as their accompanying catalogues at publicly accessible, well established museums and art collections provided that the exhibitions funded are international in their orientation, relevant from an art historical perspective, and carefully curated. Furthermore, Art Mentor Foundation Lucerne supports innovative und interactive projects that explore new approaches to fostering art education so as to attract new audiences. In principle, the Foundation also provides funds for the involvement of modern media in the expansion or presentation of significant pieces of art in the context of major museum projects.

---

## **MUSIC**

Art Mentor Foundation Lucerne predominantly supports New Music and contemporary classical music projects. However, projects on music from other eras are not excluded as a rule. In its effort to contribute to the development of professional music culture, the Foundation supports international academies and master classes conducted by established instructors. Furthermore, Art Mentor Foundation Lucerne supports various series of music events or festivals that explore new ways of fostering the public's engagement with classical music in an attempt to attract new audiences. In principle, professional orchestras and ensembles or music centers may also submit a project request for the equipment of rehearsal rooms, the acquisition of instruments or other infrastructural needs.

---

## **CULTURAL EDUCATION**

In the area of «Cultural Education», Art Mentor Foundation Lucerne supports projects that bear a significant relation to visual art or music. The target group includes children and teenagers, particularly from underprivileged backgrounds, who are introduced to art and music in the context of curricular or extracurricular activities. In this way, Art Mentor Foundation Lucerne offers support to teenagers in their personal development and, at the same time, trains the next generation of artists as well as a future audience. A project request can only be submitted provided that the programs are developed, conducted, and realized by a professional artist or a recognized public institution.
